

PRESS RELEASE

Ground Control Point ('GCP') Survey Works Awarded for the Kuala Lumpur – Singapore High Speed Rail ('HSR') Project

KUALA LUMPUR, 29 June 2017 – MyHSR Corporation Sdn Bhd ('MyHSR') has recently awarded two (2) Ground Control Point ('GCP') Survey Works contracts for the Kuala Lumpur – Singapore High Speed Rail ('KL-SG HSR') project. The appointed consultants are responsible for the installation of the GCP markers and the establishment of a common reference between the national and state grids and coordinate systems for the purposes of the project.

The GCP survey works is a critical component of the preparatory works of the KL-SG HSR project as it will provide the project with a referenced coordinate scheme that will be essential for the purposes of land acquisition and construction along the project's 335 km alignment in Malaysia.

The GCP survey works contracts have been awarded to Jurukur Perunding Services Sdn Bhd and Teraju Ukur, following an open tender exercise, which was launched in January this year.

Mohd Nur Ismal Mohamed Kamal, CEO of MyHSR said, "Progress on the KL-SG HSR project has been ramping up after the signing of the Bilateral Agreement between the Governments of Malaysia and Singapore on the project in 2016. The work to be completed by the appointed consultants will form the interface between the relevant grid systems and the project works. MyHSR will continue to work closely with the Department of Survey and Mapping Malaysia (JUPEM) to oversee the development of this common reference system."

About the Kuala Lumpur-Singapore HSR

The Kuala Lumpur-Singapore HSR is a strategic project between the Governments of Malaysia and Singapore that aims to facilitate seamless travel between Kuala Lumpur and Singapore, enhance business linkages and bring the peoples of both countries closer together. The Governments of both countries signed a Bilateral Agreement on 13 December 2016, which captured the key points of agreement on the project, including the technical parameters, commercial model, customs, immigration and quarantine clearance, safety and security matters, regulatory structure and project management approach.

About MyHSR Corporation

MyHSR Corporation is a company incorporated in 2015, wholly owned by the Minister of Finance Incorporated. As the Government of Malaysia's project delivery vehicle for the KL-SG HSR project, MyHSR is responsible for the development and implementation of the project.
