About the Kuala Lumpur-Singapore High Speed Rail

The Kuala Lumpur-Singapore HSR is a strategic project between the Governments of Malaysia and Singapore that aims to facilitate a 90-minute travel time between Kuala Lumpur and Singapore. The project is expected to enhance business linkages and bring the people of both countries closer together. The iconic project includes domestic services within Malaysia that will improve intercity connectivity and promote economic agglomeration under the Socio-economic Development Programme (SEDP) intended to benefit local communities along the corridor.

The Governments of both countries signed a Bilateral Agreement on 13 December 2016, which captured the key points of agreement on the project, including the technical parameters, commercial model, customs, immigration and quarantine clearance, safety and security matters, regulatory framework and project management approach. MRCB Gamuda Consortium and YTL-THP have been appointed on 2 May 2018 as the Project Delivery Partners for the construction of civil works in Malaysia.

Eight stations are currently planned for the Kuala Lumpur–Singapore HSR: Bandar Malaysia, Sepang-Putrajaya, Seremban, Melaka, Muar, Batu Pahat and Iskandar Puteri stations in Malaysia and the Jurong East station in Singapore, with operations of the KL-SG HSR service between Kuala Lumpur and Singapore targeted for commencement by 31 December 2026.
